Single Line and Multiple Line Phones

Phone with a Single Line

1. Line label: Displays the line phone information.

2. Header: Displays the date and time, and information (such as phone number) about the selected line.
   (If you are on a call and highlight the header instead of a call, the softkeys that display are the same as those that display when the phone is idle. This is useful, for example, if you want to access the Forward All or New Call softkeys while you are on a call.)

3. Session button label (for connected call): Displays information (such as phone number and duration) about a connected call on the line.

4. Session button label (for held call): Displays information (such as phone number and duration) about a held call on the line.
   Pressing the corresponding session button resumes the held call.

5. New Call icon: Indicates you can press the corresponding session button to make a new call.

6. Softkeys: Softkey options for the selected (highlighted) call only.
   If you select a different call (by pressing a feature button or the Navigation pad, or by answering a ringing call), the softkey options may change.
Phone with Multiple Lines

<p>| | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
</table>
| 1 | Primary line label | Displays information about the primary phone line.  
Look for the blue icon on the line label to see which line is selected. In this case, the primary line is selected, and the information displayed is for the primary line only. |   |   |   |
| 2 | Header | Displays the date and time, and information (such as phone number) about the selected line.  
(If you are on a call and highlight the header instead of a call, the softkeys that display are the same as those that display when the phone is idle. This is useful, for example, if you want to access the Forward All or New Call softkeys while you are on a call.) |   |   |   |
| 3 | Session label (with Connected Call icon) | Displays information (such as call status and duration) about a connected call associated with the selected line. |   |   |   |
| 4 | Session labels (with Held Call icons) | Display information (such as call status and duration) about held calls associated with the selected line.  
Calls are displayed on the right side of the phone screen from the oldest (at the top) to the newest.  
Pressing the session button next to a Held Call icon resumes the held call for that session. |   |   |   |
| 5 | Softkeys | Softkey options for the selected call only.  
If you select a different call (by pressing a feature button or the Navigation pad, or by answering a ringing call), the softkey options may change. |   |   |   |
| 6 | Answer label | Displays if your system administrator has assigned the Answer feature to the programmable feature button.  
Pressing this label or the corresponding button answers the oldest incoming call without having to scroll down the call list and select the call. |   |   |   |
| 7 | Speed-dial label | Displays if you or your system administrator assigned a speed dial to the programmable feature button. This is useful if you tend to have more than five active calls on your phone. |   |   |   |
| 8 | Nonprimary line labels | Display calls and information about nonprimary phone lines. |   |   |   |
